2.1	Creating An Account . . . . .	5
2.2	Functionalities . . . . .	6

The [Gherkin Editor](#) is a tool that allows you to write, download and share Gherkin Feature Files. it is bundled with a number of handy features to enable teams to collaborate more efficiently and write better Gherkin.

The Gherkin Editor is constantly improving with additional features added based on what our user community requests. Therefore, if you see a functionality that would enhance the editor make sure you head to our [feature requests page](#) and added it there or vote for it if it has already been raised by another community member.

## INTERACTIVE DOCUMENTATION

Below is an interactive document showing you all the features the [Gherkin Editor](#) has. Click on blue highlighted features to explore their functionalities.

## DOCUMENTATION

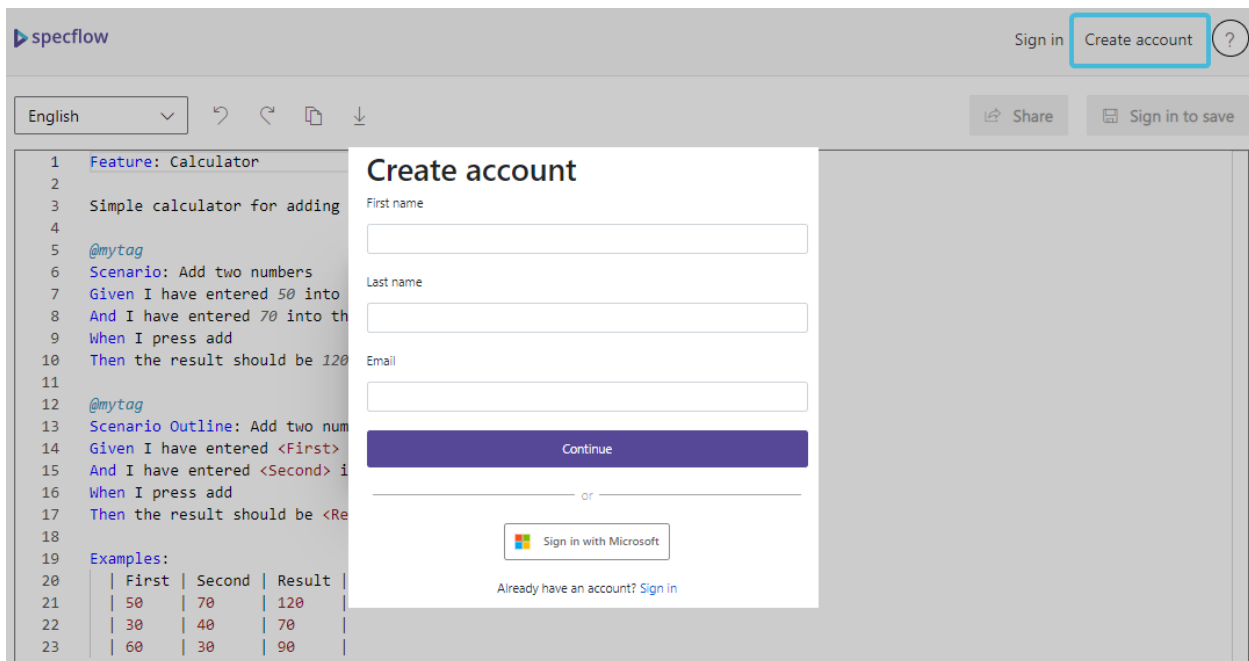

Here is a static version of the interactive document above:

### 2.1 Creating An Account

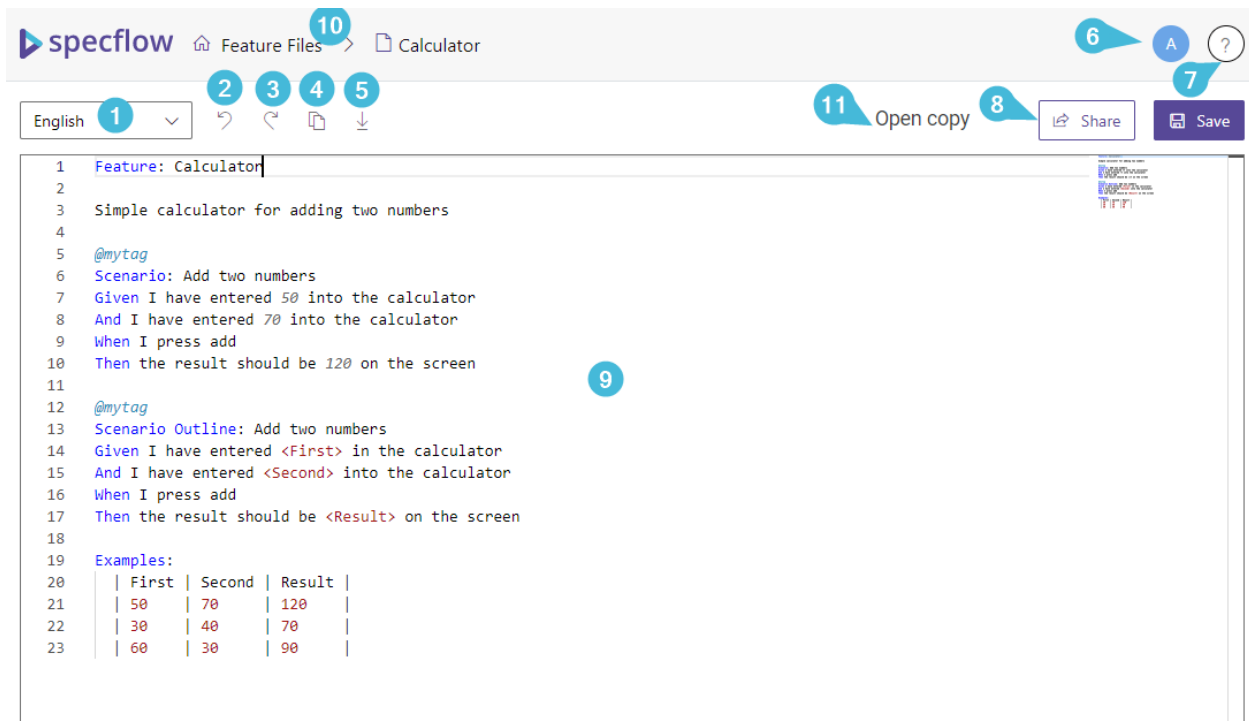

We recommend that you start by creating an account before using the Gherkin Editor. Creating an account unlocks two essential functionalities, **Save** and **Share**.

Creating an account is easy; click on *Create an account*, enter your first name, last name, and an email address to sign up.

Alternatively, you can sign in with your Microsoft account.

## 2.2 Functionalities

1. You can write Gherkin feature files in:

- English
- Deutsch
- Español
- Français
- Nederlands

2. Undo your last change (Ctrl + Z).

3. Redo your last change (Ctrl + Y).

4. Copies the **entire** content of the feature file.

5. Downloads the feature file to your machine. The filename will always be the name of your **feature**, In this example, **Calculator.feature**. Edit the feature title to rename the file name.

6. You can see the account linked here and also **logout** if wish you to. You will also find your **account settings** here along with the dark mode option.

7. You can access the following resources from here:

- Give Feedback
- Contact Support
- Learn Gherkin
- Terms & Conditions
- Privacy Policy

8. The share button will generate a link that you can use to share the feature file with your team.

There are three access level options here:

### Share feature file ✕

Copy the link to share the feature file with your team.

Access

 Only me can view and edit ▾

<https://app.specflow.org/...>  Copy link

Only you can view and edit this file with this link

**OR**

### Share feature file ✕

Copy the link to share the feature file with your team.

Access

 Anyone with the link can view and edit ▾

<https://app.specflow.org/...>  Copy link

Anyone with this link can view and edit your file

**OR**

## Share feature file

Copy the link to share the feature file with your team.

Access

 Anyone with the link can view 

<https://app.specflow.org/...>  Copy link

Anyone with this link can view only

9. This area is where the magic happens! You write your Gherkin here and our intelligent editor will assist you with:

- Highlighting of Gherkin keywords
- Automatic table formatting
- Variable highlighting
- Validating your feature file
- In addition to find and replace with plain text, the *Find Widget* also has three advanced search options:
  - Match Case
  - Match Whole Word
  - Regular Expression

**Note:** Editor has a 15 000 character limit and you can store a maximum of 25 feature files.

10. This takes you to your feature files homepage where you get an overview of all your feature files and also feature files that are shared with you. You can **Delete, Download, and view the access level** of your feature files from here:

The screenshot shows the SpecFlow Gherkin Editor interface. At the top, there is a navigation bar with the 'specflow' logo, 'My Files', and a '+ Create File' button. Below this, there is a sidebar with two tabs: 'My files' and 'Shared with me'. The main content area displays a table of files with the following columns: Feature Title, Last Modified, Modified By, and Access. The files listed are 'Calculator', 'Welcome screen', and 'sign in'. The 'Calculator' file is highlighted with a blue border. The 'Access' column contains icons for sharing, deleting, and downloading.

Feature Title	Last Modified ↓	Modified By	Access
Calculator	a month ago	Ali Mollahosseini	  
Welcome screen	2 months ago	Ali Mollahosseini	  
sign in	2 months ago	Ali Mollahosseini	  

11. Create a copy of the current feature file in a new browser tab.
